However it falls short of demanding a permanent ceasefire as Israel continues to pledge an invasion of Rafah — Hamas reiterated that a permanent ceasefire on day 1 of a deal is one of the conditions it won’t compromise on

[US] Biden claims there’ll be a ceasefire by Monday, but this is likely an attempt at easing domestic concerns rather than pressuring Israel, making more premature unverified claims that Israel agreed to no military action during Ramadan

[US] US airdrop of aid in Gaza met with criticism as an ineffective and insufficient means of delivering aid compared to ground delivery which would ensure more aid safely reaches Palestinians.
